## Travel Products Making Traveling Easier

jennifer on August 5th, 2008

When traveling, companies are taking note of the newly imposed carry-on restrictions, weight limits and additional fees for even checking a piece of luggage on most airlines. There are products designed to maximize space, minimize weight and hopefully save money on additional levied baggage fees (whether for an extra bag or for one that exceeds weight restrictions). Following are a few products to help travelers when packing or items that make traveling easier.

- To maximize luggage space, use **Compression Bags**. The bags remove excess air around bulky items, creating up to 80% more packing space. Offered by TravelSmith Outfitters, [www.travelsmith.com](http://www.travelsmith.com).
- Maximize clothing purposes with versatile articles such as the **Women's Sophisticated Three Piece Set**. Offered by [TravelSmith Outfitters](http://TravelSmith Outfitters), [www.travelsmith.com](http://www.travelsmith.com).
- Clear bag sets to take your personal toiletries, eliminating need to purchase travel-sized products. One stylish choice for men, women and children is the **Clear Bag System™ toiletry kit**. Available at: [www.clearbagsystem.com](http://www.clearbagsystem.com).
