Clear Bag Gets Canadian Approval

Mar 25, 2008 10:42 AM

The Canadian Air Transport Security Authority (CATSA) has confirmed that 311 Travel Bag's Clear Bag System is compliant for use in all 89 CATSA-serviced airports across Canada, the company reports. Equipped with an assortment of reusable containers that dispense shampoo, lotion and other toiletries through an airless pump and spray system, the Clear Bag System is an alternative to purchasing "travel-sized" products.
