311 Travel Bag, Inc., a developer of practical carry-on solutions for the modern traveler, has announced that its Clear Bag System has been given the all clear sign by authorities for use in all Canadian airport pre-board security checkpoints.

The practical yet stylish answer to today's airport security restrictions, the Clear Bag System cases ensure a faster and more relaxed travel experience. Made of high-quality vinyl and a convenient zipper pull, the Clear Bag System comes in several convenient configurations to meet the personal needs of individual travelers.

Equipped with an assortment of reusable containers that neatly dispense shampoo, lotion and other toiletries through an airless pump and spray system, the Clear Bag System eliminates the need to purchase multiple "travel-sized" products.

The complete line of Clear Bag System cases is priced between \$25 and \$45. For more information, visit [www.clearbagssystem.com](http://www.clearbagssystem.com).
