GEAR TO GO

CLEARLY A GOOD IDEA

The new Clear Bag System was developed in response to tighter airline security: each refillable bottle holds three ounces or less of your favourite shampoo, lotion or other liquid or gel and the sturdy, see-through, zip-up bag meets the one-litre airline security requirement. The bottles come with patented airless pump dispensers, designed to prevent spills even under pressure. \$25 to \$50 U.S. at www.clearbagsystem.com or call 1-866-969-1740. The company says shipping to Canada starts at about \$15 and takes five to seven days.
