Planning a trip? We recommend you pack your bags with these smart products for the trendy globetrotter.

The 3-1-1 Travel Bag

Make your next trip through airport security a breeze with this TSA-compliant **Clear Bag System toiletry case (\$24.95)**, which ensures your liquids and gels meet current security restrictions — carry-on liquids, gels and aerosols need to be in containers weighing 3 ounces or less, which must be enclosed in a clear, quart-sized zip-top bag. The 6-by-8-inch Clear Bag System is designed to fit efficiently inside carry-on luggage and includes five reusable containers with innovative airless pumps that neatly dispense shampoo and lotions while ensuring they remain intact throughout the flight. The Clear Bag System includes three small and two large containers, with matching jars for creams available separately. For more information, call 866-969-1740 or visit www.clearbagsystem.com.
